WHY ME?

I am ready to learn and I am cooperative. I am passionate about web design, and with an excellent skillset that allows me to be versatile during development. I have participated in a variety of projects and hackttons that have allowed me to acquire the right exposure to best practices.

Aside coding in Javascript, Java, PHP and using CSS and HTML to create great websites. I have a wide range of skills offered at competitive prices. I am skilled in using Photoshop, Illustrator, After effect and Indesign and may more. All my previous customers were satisfied with my work

PAST ACCOMPLISHMENTS

In the past I have worked with many companies remotely. I am endowed with the art of working remotely.

In 2016, As part of my coursework I worked with L'oreal. I researched and suggested expansion strategies.

I have worked as an independent contract with ride sharing startups in Mauritius.

I worked with Vite a mauritian taxi hailing startup. In less 5 months I got their facebook page more than 8000 likes while starting from scratch. All these likes while the company didn't even have the mobile app. But basically through great designs and excellent marketing tactics

In March 2017 I worked with Droite another startup and in two weeks got the facebook page more than 1000 likes.

This is a suggested package that can be tailored for whoever requires them
